ALLORED CONSTIRACY TO DEFEATD.

Heary A. Wilmerding et al. agt. Adoloh Lewin, Sigismund Simon and Isano Bernstein.

The evidence in this case showed that the two first-named defendants conducted a business in millinery goods at No. 412 Broadway in the early part of 1863; that they purchased goods on credit from plaininf on the 1st of February, the 7th, 18th, 18th, 18th and 18th of March and the 4th of April in that year, amounting to 84,220 32, for which they have est paid; that abortly after the purchase of the last of these godies and the respicion of them at their place of business, they were boxed, marked and sent to Fhiladelphin and Washington; that shortly after this their place of business was discovered to be on fire under circumstances exciting samplelon that they (Lewin and Simon) had purchased the goods with intent to defraud their preditors by not paying for them.

The two first-named, Lewin & Simon, were named in the numinous and complaint, but process not being served outlier, on account of inability to find them, Bernstein is the only real defendant.

The Caurt in charging the jury said it is glaimed by plaintiffs.

on account of inability to find them, Bernstein is the only real defendant.

The Court in charging the jury said it is claimed by plaintiffs that Bernstein was not only a friend of Lowin & Simon, but that he was very intimate with them, and knew of the packing and directing of a portion of these goods to his firm in Philadelphia, and they also claim that the circumstances, as developed by the evidence, are such as should satisfy you that he knew of these saleged frauds upon the plaintiffs.

Now, if he knew these facts, and contributed, aided or abstract of the conspirator, for their actions in the matter, and is equally links with them—all joint wrong doers being liable jointly and severally.

The defense is that although an intimacy and acquaintance existed between these parties, and defendant was frequently in their place of business during these transactions, that defendant was entirely ignorant of their designs in this matter, and bean not ware of the goods being sent away with intent to defendend.

reas not aware of the goods being sent away with intent to defrand.

The Court, after telling the jury that it was for them to describe that question, said that although the evidence in relation to this point is to a certain extent conflicting, yet defind must station in so it of directly contradicted; but if the circumstances of the case) should warrant them in believing that the broof of defendants being there, and acting as alleged, was afficient to induce a positive belief that he aided and shorted this transaction, beyond a reasonable doubt it was their duty to find for plaintiffs the full amount claimed with interest.

The jury were then directed to bring in a scaled verifiet this sicoraing. Mr. A. J. Vanderpoel and D. and J. McMahou for plaintiffs; ax-Judge Pierrepout and Mr. Stanley for defendant.

Mr. A. J. Vanderpoel and D. and J. McMahon for plaintiffs; art-Judge Pierreport and Mr. Stanley for defendant.

COURT OF COMMON FLEAS—CHAMERES—DEC. 26.—

A QUESTION OF FRACTICE.

Ballowhey & Foulliot agt August Cadot.

The defendant in this case was arrested at the finitance of the plaintiffs, and held to ball in the sum of \$35,000. A motion was unite to vacate the order on the ground of irregularity in the plaintiffs' papers. The following is the opinion delivered by Judge Cardone in the case:

The omission to insert the Christian names of the plaintiffs is at most an irregularity. But even if this omission rendered the process rold: the defendant could not avail himself of it after his general appearance in the action. (Fristy act Mitchell, 7 Cow. 36%. Under our broad powers of amendment, as the papers already show that the plaintiffs are the persons who compose the firm of Ballouders & Co., manufacturers of glassware at Le Rechern France, in furtherance of justice there phould be leave granted to amend by inserting the Christian hames of the persons who composed that firm.

The other objections raised by the defondant do not constitute say ground for vacating the order or arrest. It is instead that many of the statements in the complaint coult not be within the knowledge of the deponent. I do not see that this is necessarily so. The deponent swears positively to them, and as the facts are conceded to be as stated by him, by reason of the fracts are conceded to be as a stated by him, by reason of the fracts which he asserts. I think this point has no force. The other religions raised are, first, that the affidant does not show thick to a not appear that any tender was made to the defendant any written authority was scalibiled, and, ascendly, that it does not appear that any tender was made to the defendant any written authority was scalibiled, and, ascendly, that it does not appear that any tender was made to the defendant any written authority was parallelized.

all that is necessary to allow that that is unfounded. If the we points especified be untensable.

I doe to those two objections, it is enough to say that the demand, without production of the agent's authority, would be perfectly good entest that objection were taken at the time the femand was made (Roibrook egt. Wight, 84 Weed, 159; Tuttle gag, Gladding, 2 Ed. Smith, 129, Juniop's Paley or Agency, 347), and if that were the fact, the defendant must show it.

But it is said that it does not appear that any tender was made. It may be answered, nor does it appear, that there was made. It may be answered, nor does it appear, that there was made. It may be answered, nor does it appear, that there was made in the discharge. The detendant of occurse had the right to retain the property until any timesus for which he was positied to a lieu was paid. But how on the Court say that my sontified to a lieu was paid. But how on the Court say that my suph amount was unpatis! If there existed any demand for which the defendant had a lieu, he must show it, and as he had

not done so, I must assume that there was no unpaid claim for which he was criffed to a line

ment against the guardian.

IMPORTANT REVENUE CASE.

C.F. Schmeeder & Co. agt Hiram Barney.

This action is one of considerable importance to the dry goods importing trade. It is a suit to recover duties alleged to have been illegally exacted by the defendant as Collector of the Port in 1873, on actival importations of dry goods, which it is obtained by the defendant are of similar description to delained, and subject to a druy of 25 per cent ad reforem, and two cents per square pard, while the plaintiffs claim that the goods should be chassed as "manufactures of worsted not otherwise provided for," subject to duty at 25 per cent ad reforem. Several of the most manufaced for guards importance were present in court as

THE STREET CLEANING QUESTION.

HEALTH-THE BOSTON SYSTEM. The following documents will be read with interest

by our citizens who hope that New-York will yet show clean and heal coets:

of the Mathematical Points of the Albert of Health, and heal coets:

No. 201 Motters. New-York, Dec. 2 1866.

Jas. R. Whitting, esp., Conference for Street Cleaning—Ny Dark Sin: In the hope that valuable information could be obtained from the experience of other cities in the matter of Street Cleaning. I requested our Superinteedent to make inquiries in regard to the economies and methods adopted is Boston for cleaning the streets and removing the garbage, ashes, &c.

Herewith, I sand you his reportemade after a full personal inspection of the appliances where in use, and their success.

Then are several features about their system which afterst eitention and differ from ourse.

First: The city swins throw morses, carts, harness, depots, &c. The consequence is that they control entirely their service, and by the proper simployment of proper agents they keep the materials of the department not only in goed sorticable condition, but when it is seen on the streets, it reflects credit upon the city.

The analogy as a shale-bodied men, intelligent and obliging, as they should be, to enter as they do there, upon the premises and remove the ashes, garbage, &c.

By this more intelligent and controllable system the garbage and swill are kept entirely asparate from the ashes and subblish, whereby all collections are made more valuable.

This impedion has not been made, however, with a view of substituting another for the contract system, under which you are employed, but for the purpose of sugarding improvements that may be adopted by you, which will not only facilitate the work but actually add to your profits. It is with this view that left to you the following suggestions:

The desired objects of the contracts which you have, are "to seby our citizens who hope that New-York will yet show clean

Government stocks were lower from | to | per cent on

the gold-bearing issues, and upon quite moderate sales. In State stocks, railway mortgages and bank chares very little doing. Early in the day stocks upon the street were strong and in good demand at an advance upon the extreme prices of Monday, Erie selling at 681, Michigan Southern at 831, and North-Western Preferred at 841. At the Board the advance was not sustained, but as compared cent in Pacific Mall, Atlantic Mail and Cleveland and Toledo, in Union Navigation and Toledo, Wabash and Western, I in New-York Central and Eric Preferred, and Erie, ; in Reading, ; in Michigan Southern, 2; in Cleveland and Pittaburgh, 3 in North-Western Preferred and 1 in Fort Wayne, After the call the market was weak under an active demand for money among stock houses, and prices continued heavy during the afternoon. The last quotations were as follows: New-York Central, 108; 3 109; Erie, 65 266; Reading, 1041 2105; Michigan Southern, 814 2812; Cleveland and Pittaburgh, 86 2864; Rock Island, 103@1031; North-Western, 44@441; North-Western Preferred, 83 2834; Fort Wayne, 105 21054.

Money has been in active demand among stock houses at per cent, and 6@7 per cent has been paid on Government collaterals. The activity in money proceeds in some degree from the usual desire to make things look snug by erchants and others at New Year's. In Commercial paper there is little doing. Prime names sell at 7 P cent. Late in the day no call loans could be made under 7 per ent. Sterling bills at 60 days are quoted at 1091 by leading houses. The following shows the exports (exclusive of specie)

from New-York to foreign ports, for the week ending December 25, and since the beginning of the year:

the week \$5,112,979 iously reported ... 205,947,340 18**65.** \$5,449,445 171,234,076 Since January 1..... \$211,060,319 \$176,683,521 \$185,815,620 Freights are much advanced; the engagements to Liverpool are 600 bales Cotton at 7-32-24d.; 300 bales compressed do. at id.; 2,000 boxes Cheese at 20d., and per steamer 200 bales Cotton at 9-16@4d., 2,300 boxes and 400 hhds, Sugar at 20s.

The business of the Sub-Treasury was: Receipts, \$3,774,533 95-for Customs, \$255,000; Payments, \$3,532,-304 17; Balance, \$111,257,710 68-Gold Notes, \$678,000 A Washington letter to The Chicago Republican contains the following speculations upon the action of Con-

gress upon the currency:

good deal discussed upon the street. The statement that the entire capital stock issued is only \$25,105,800 is doubted, and the question raised whother there is not stock hypothecated beyond this sum. As the report was sworn to on the 15th of December, it is fair to assume that the worst is known so far as the amount of stocks and bonds concerned. The chief points of interest in the next annual report will be the condition of the floating debt, and the amount of supplies on hand bought with borrowed

a disastrous year. One concern with an original capital of a million in gold, has been reconstructed minus the capital -which has been distributed in the street.

The Chicago Republican of Mouday morning says: During the week there has been rather more activity in a la business, but this is due almost entirely to the demand-incidental to the approaching helidays. The wholesale: chants find collections all over the vinterior slow, and they are generally refusing to fill bills on long credits. This is a healthy sign, and we trust the policy will be carried out in every depart-ment of trade.

sign, and we trust the policy will be carried out in every department of trade.

In this respect, however, our merchants are working to some disadvantage. At present the entire North-West is everran by "drummers," or commercial travelers for Eastern houses, whose only desire seems to be to get orders and fill them, regardless of the ability of those who erder the goods to pay their bills at maturity. But this is a matter which will work its own cure. The large importing houses of New-York will learn from experience that the judgment of Western dealers and jobbers as to the credit system is the most correct in the long rim. They will find it easy enough to sell their goods on long time; but when the bills are due, it will be found to be a losing business.

In commercial circles business has been rather more lively during the week but the movement in grain is comparatively light. The pork-packing is now in full blast, and the market for provisious and hogs has assumed a healthier aspect. Up to date, there have been packed in this city 165,000 hogs, against \$5,000 during the corresponding period lastsceason. This would inflicate that the packing this year will close earlier than last season.

BRICKS are without change; we quote at \$12 50 \$13 50 for common Hard; \$22 3 \$25 for Croton, and \$75 for Philadelphia

COTTON.—The demand has been moderate, principally from shippers and speculators, and prizes are lower, closing rather heavy. The offerings are not very liberal; sales of 1.400 bales on a basis of 3.42 Mo. for Middling Uplands, and 35c, for Now-Orlsana.

COFFEE.—There has been a moderate business doing in Bruzil Coffee at about previous rates, but buyers still seem in clined to hold off, and the general tone of the market is a dult one; sales of 1.617 bags lito ex steamer North America, at 114 6 132c, gold, in bond. Other styles are neglected.

FLOUR AND MEAL.—The demand for Westers and State Flour is fair for the season, and with limited arrivals prices of the low grades are 102 15c, better.
